CGPA CRITERIA-

7

SELECTION PROCESS-

ROUND 1- CODING ROUND

The first round was an online coding round on 'Mettl' online platform. There were three problem solving questions on Data Structures and Algorithms.

ROUND 2 - FLY-OFF ROUND

Fly-off round was a paperpen round in which two coding problems were asked and a clean, working code was supposed to be written.

ROUND 3- INTERVIEW ROUND

The third round (final round) consisted of one to two Technical Interviews followed by an HR interview.

Technical Interview :- DS-Algorithm based coding problems, questions on core computer science concepts like OS, DBMS, OOPS etc and also some System Design questions along with some scenario based technical questions were asked.
